

charlotte ardui is an architect, researcher and educator working at the intersections of architecture, heritage and urbanism. She holds a PhD in Architecture (KULeuven, 2026) on the adaptive reuse of post-war parish churches in Flanders, works as a freelance architect with Brussels-based office CRIT., and teaches architecture and cultural history at Hasselt University. Across these different roles, her work starts from a careful reading of places and an interest in architecture as an hopeful social and cultural act.
